## TELEGRAPHIC BRIEFS

WASHINGTON, Dec. 11.—Experts in "petrography" gathered here today to take the civil service examinations for a position in the bureau of standards. All a petrography expert has to know is to be able to determine the ingredients of "usability" of every kind of stone.

WASHINGTON, Dec. 11.—President Wilson will remain in Washington today, but this evening he will deliver an address to the 600 members of the Rochester Chamber of Commerce who hold their annual banquet there tonight. The president, seated at his desk in the executive offices, will talk into a telephone which will be connected with 600 telephones placed about the Rochester banquet board. This is the first time the president

has attempted such an experiment, and he only did it after much pleading by United States Senator O'Gorman, after he had found it impossible through press of business to attend the banquet in person.

WASHINGTON, Dec. 11.—Civil service examination headquarters here sounded like a German band barracks today. The too-tots, and ta-ra-tas came from a score of more of "Moo-slers" who are candidates for the position of leader of the orchestra and band at the federal prison at Atlanta, Ga.

WASHINGTON, Dec. 11.—Mrs. Woodrow Wilson, wife of the president, and scores of women prominent in governmental social circles planned to take an active part in the social welfare work to be undertaken by the Women's Clinic Auxiliary which opened its sessions here today. The Auxiliary plans to care for working-

women who cannot afford to go to hospitals or pay fancy prices to physicians.

WASHINGTON, Dec. 11.—A bill creating the Oregon Caves National Park and setting aside 480 acres in Josephine county for that purpose has been introduced in the house by Representative Hawley.

PASADENA, Cal., Dec. 11.—There is a hen in the poultry show here that is emulating the militant suffragettes. Until a year ago she was just a regular brown Leghorn, laying eggs and performing her other duties. Then she sprouted tall feathers and a comb and refused to lay. She doesn't crow and has no spurs, but otherwise she is a real Pankhurst among chickens.

SAN FRANCISCO, Dec. 11.—Police-man C. S. Garfield is in trouble here through being too artistic. According to Police Captain Duke, Garfield de-

signed a postcard reproducing "September Morn" with the addition of a masked highwayman confronting the young woman, leveling a pistol and commanding her "hands up." Con-tending that an agency has been established to sell the cards, Duke called Police Chief White's attention to a rule prohibiting members of the department from conducting "side lines."

WASHINGTON, Dec. 11.—Congressman Hawley has introduced a bill in the house placing all veterans of the Indian wars prior to 1880 on the pension roll at \$20 monthly.

PEKIN, Dec. 11.—Under President Yuan Shi Kai's government, a start has been made toward developing mining, hitherto backward. The first step took the form of a letter issued by the president's secretary announcing that the administration was preparing new regulations making the opening of mines easier, and express-

ing the hope that foreigners would join the Chinese in investing in them.

NEW YORK, Dec. 11.—President Vail of the American Telephone and Telegraph company said that he thought New York to San Francisco telephoning would be done regularly by 1915.

TACOMA, Wash., Dec. 11.—John B. Dean, trainmaster of the Tacoma division of the Northern Pacific has been appointed assistant superintendent of the same division, succeeding T. E. Coyle, who was promoted to be superintendent of the Pasco division. The appointments become effective January 1.

SAN FRANCISCO, Dec. 11.—Federal Commissioner Krull acquitted Dr. Spongie, surgeon of the steamer City of Sydney, arrested for having among his effects two oranges thought to have been purchased in Mexico in vi-

olation of the prohibition against importation of ruit from that country.

### HOOGS TREATED FOR CHLOROA BY SCIENTIST

NORTH YAKIMA, Wash., Dec. 11.—For the first time in this state, and probably in the northwest, the "simultaneous treatment" for cholera has been administered to a herd of hogs. Dr. Robert Prior, deputy state veterinarian, last week at Grand gave the treatment to a herd of pure-bred blue ribbon Hampshires belonging to Tyler & Son, and to 55 Duroc Jerseys belonging to T. A. Noble, of this city. Simpler treatments giving immunity for certain periods have been tried here before, but not the simultaneous treatment, which is said to insure immunity for life. It consists of administering the cholera virus and the cholera serum at the same time.

### CANADA'S FIRST LADY PUTS BAN ON TANGO

OTTAWA, Dec. 10.—The tango dance is not to be allowed at government house festivities. The Duchess of Connaught, who is very fond of dancing, has decided to draw the line, and has let it become known that she is positively opposed to the tango.

Many of the Ottawa society folk have been taking tango lessons from a New York teacher and news that the duchess would not countenance the dance has acted as a general damper upon their enthusiasm.

### Harvard Disappointed.

CAMBRIDGE, Mass., Dec. 12.—Harvard's football authorities and players were disappointed when they learned that Chicago had declined the invitation to play in the stadium next year.
